

Flight Control Grips

F-16 FLCS Grip

Part # 100-F0-1003

Aerotronic's F-16 flight grip is essentially a dimensionally accurate metal investment casting of the real grip. It is populated with high-grade switches from the original equipment manufacturers, Otto engineering, Mason, as well as hi fidelity simulation switches.

Connector:

- 15-Pin Grip connector
- Matrix pin out

F-16 Throttle Grip

Part # 300-T0-1002

Aerotronic's F-16 flight grip is essentially a dimensionally accurate metal investment casting of the real grip. It is populated with high-grade switches from the original equipment manufacturers, Otto engineering, Mason, as well as hi fidelity simulation switches.

Connector: Matrix pin out & Discrete Analog

F-15, Harrier and F-18 Grips

Our F-15, Harrier and F-18 grips are made of resin-type material in synchrony with the real Flight grips.
